Rainwater Tank

- The Law now states that all houses are required to be connected to a rainwater tank.
- There are a number of ways this can be achieved and your consultant will speak to you in regards to the options.
- We have included in our price a 1000 Litre tank with an Automatic Rainbank Pump system connected to a toilet.

Fees

- Council Planning and Building application fee, SA Water standard pre-laid water and sewer connection are all included.

Plans

- Included in the price is the cost of plans, soil report & engineer's footing design and wind category determination. The cost of contour plans for sloping sites will be additional.
- Sliding Robes are shown on plans for illustration purposes only, and can be Quoted on an individual basis (Note: WIR Shelving is included as previously noted).

Terrain

- Pricing allows for building to a maximum design wind speed of 33m/second.

Energy Efficiency

- All of our homes have included in the price the current minimum requirements for Energy Efficiency in accordance with the Building Code of Australia i.e. 5 STAR RATING.

Maintenance

- In addition to a 13 week liability period, your home is covered by a Home Owners Warranty Policy which provides a guarantee against structural defects for a period of 5 years.

DUE TO TECHNICAL DIFFERENCES BETWEEN THE STYLE OF HOMES SOME SPECIFIED ITEMS MAY VARY SLIGHTLY.
